Setting up the Overdrive App and Accounts

The steps outlined on the following pages will only need to be done the first time you use the app. However, each time you set up the app on a new device, you will need to go through these steps.

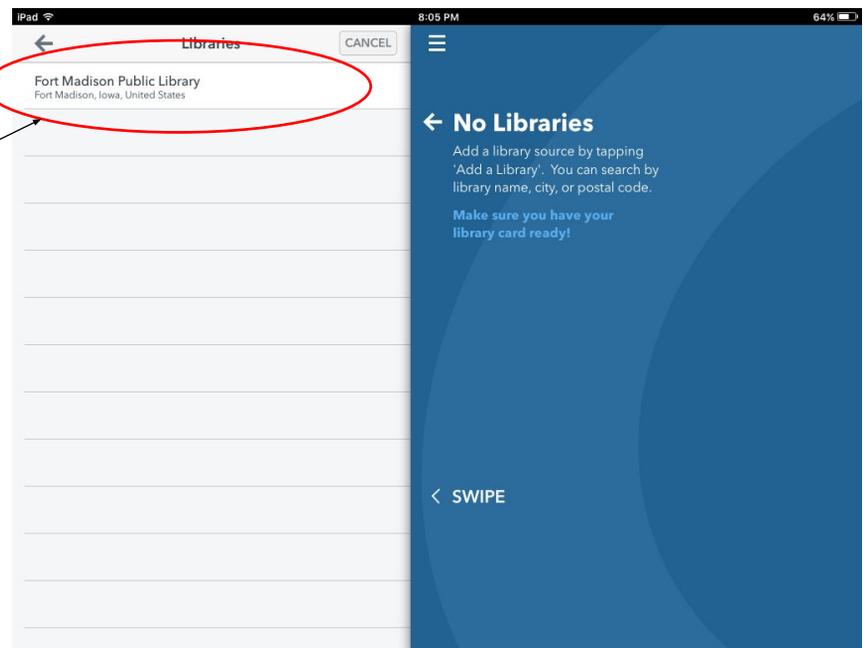

Bridges App

Searching is a lot faster than browsing as we are the only Fort Madison in the country.

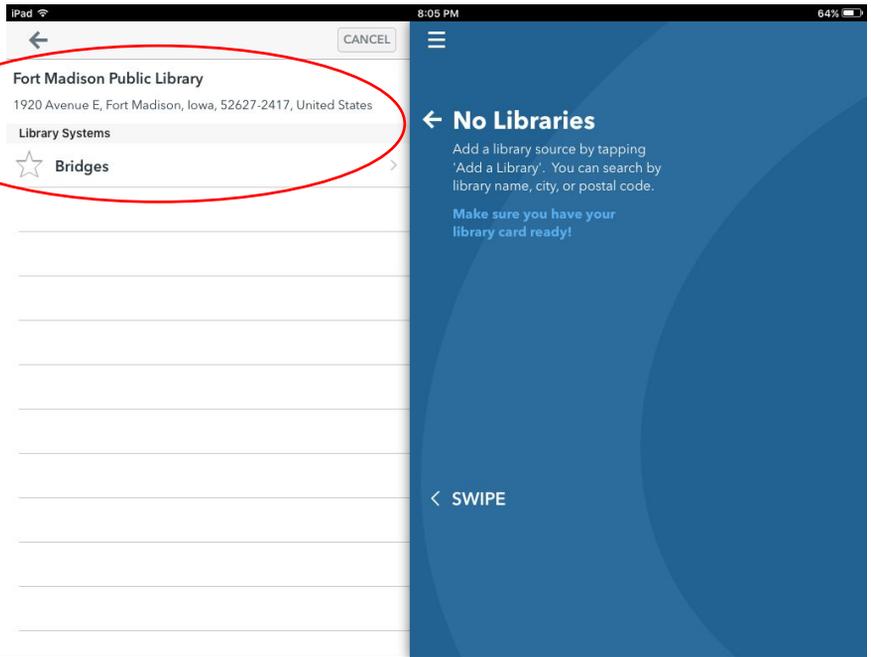

Bridges App

Click on "Fort Madison Public Library" when it appears

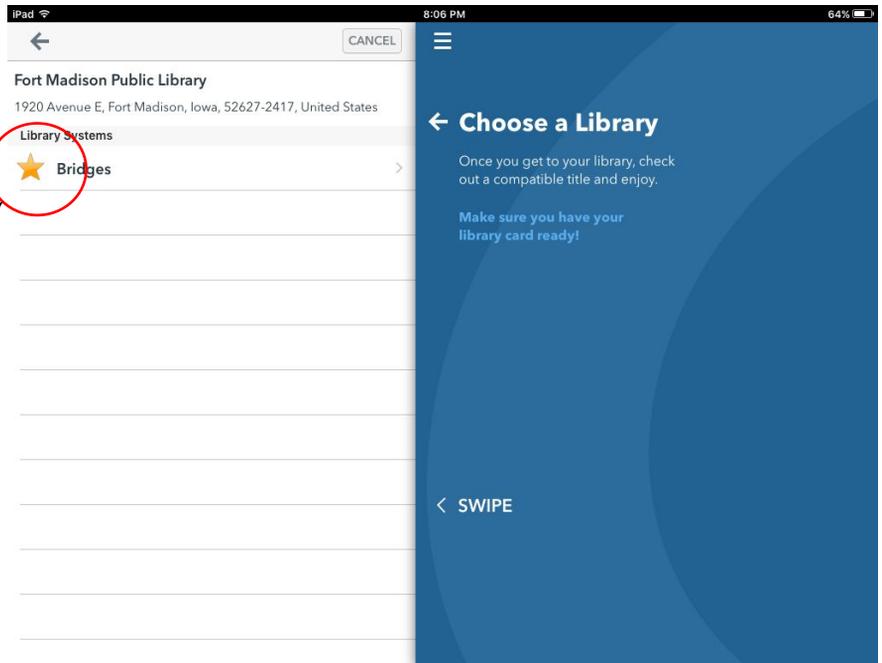

Bridges App

Click on the star to set this as your default library.

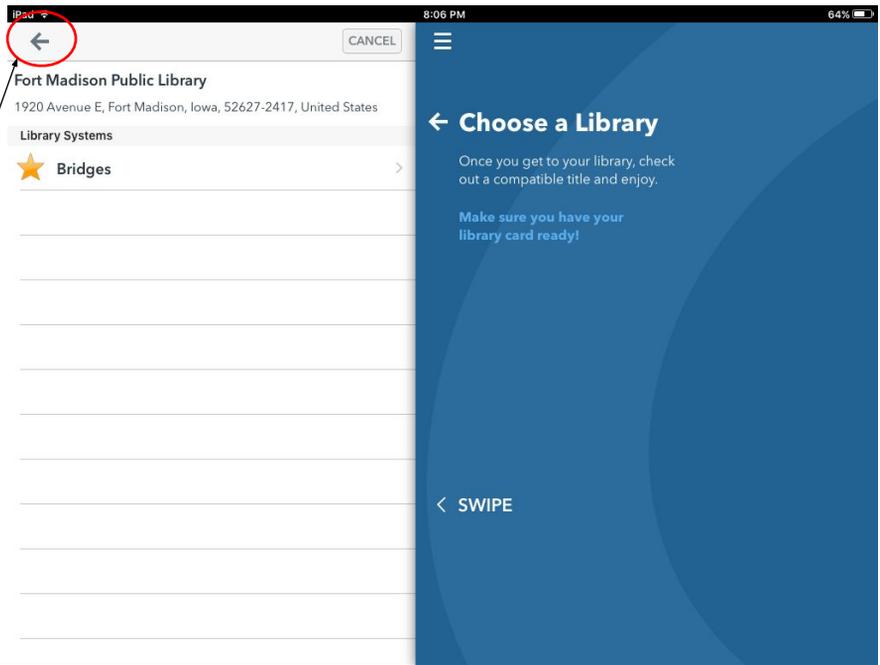

Bridges App

The gold star indicates this is selected as your default library.

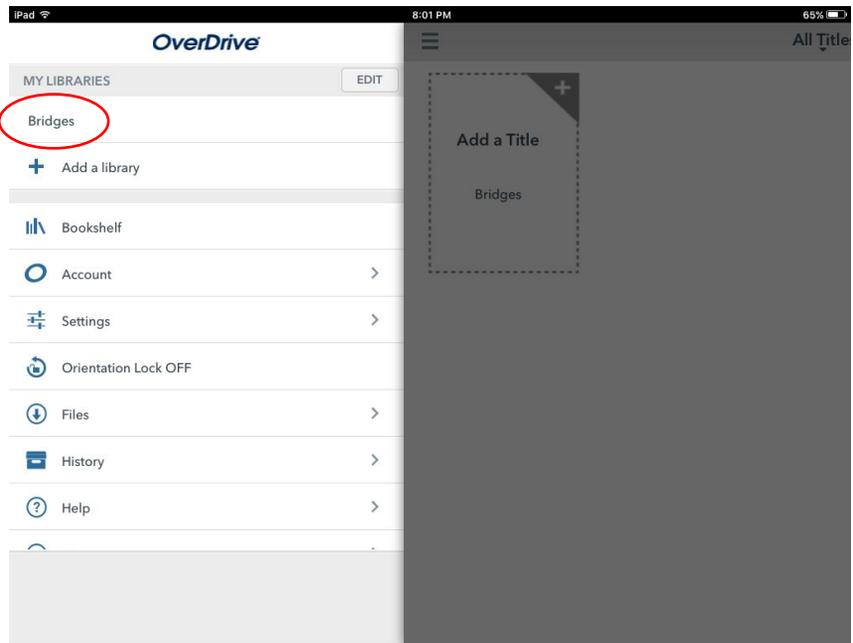

Bridges App

Click on this arrow to return to the main page of the app.

Bridges App

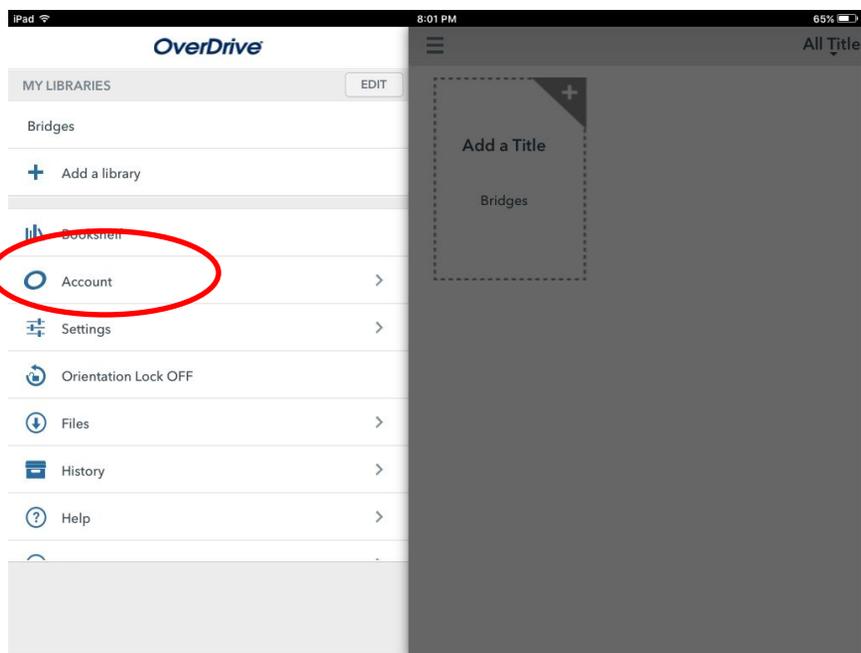

You will now see "Bridges" listed under "My Libraries". This is what you will click on to search or browse for titles you want to read or listen to.

Bridges uses an account **different from your library card ID and PIN** to let you keep track of your place in books across devices. For example, if you have a laptop and an iPad, you could start reading on the iPad and then pick up where you left off on the laptop if they are both logged in using the same account. **You will create this account using an e-mail address and a password of your choosing.**

Bridges App

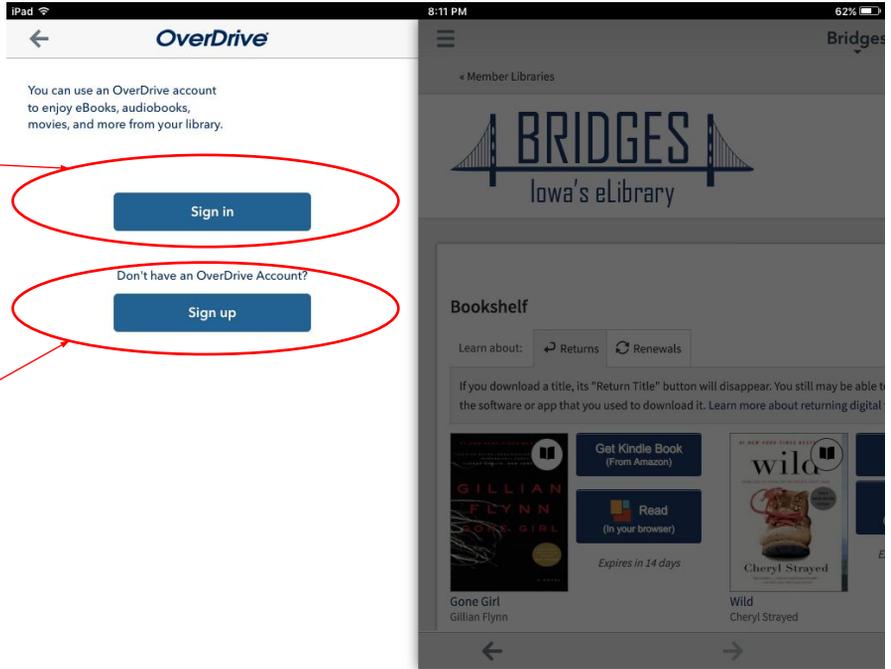

Click on "Account" to register the Overdrive app with your account, or to create an account.

Bridges App

If you have already created an account, click on "Sign in"

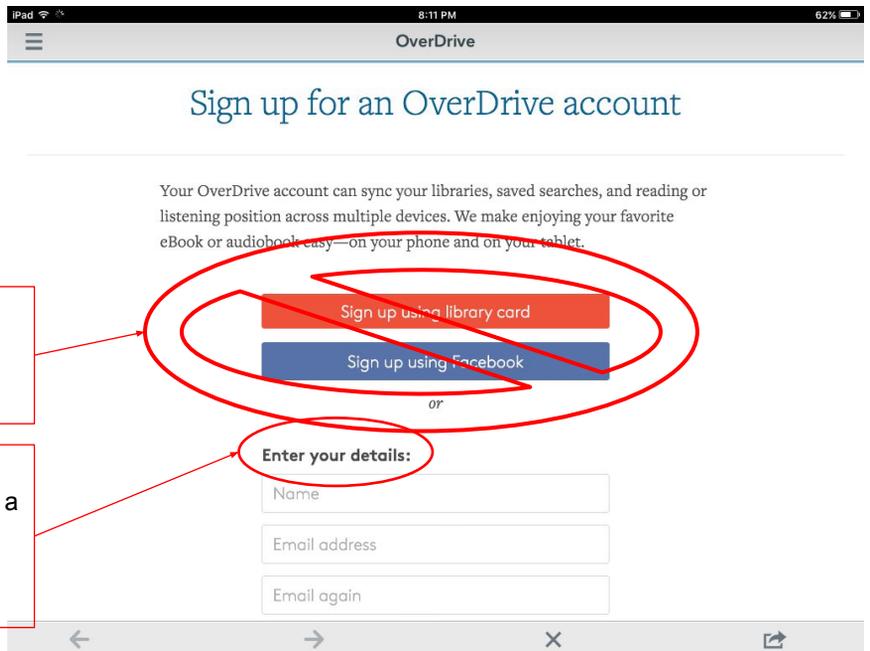

If you need to create an account, click on "Sign up"

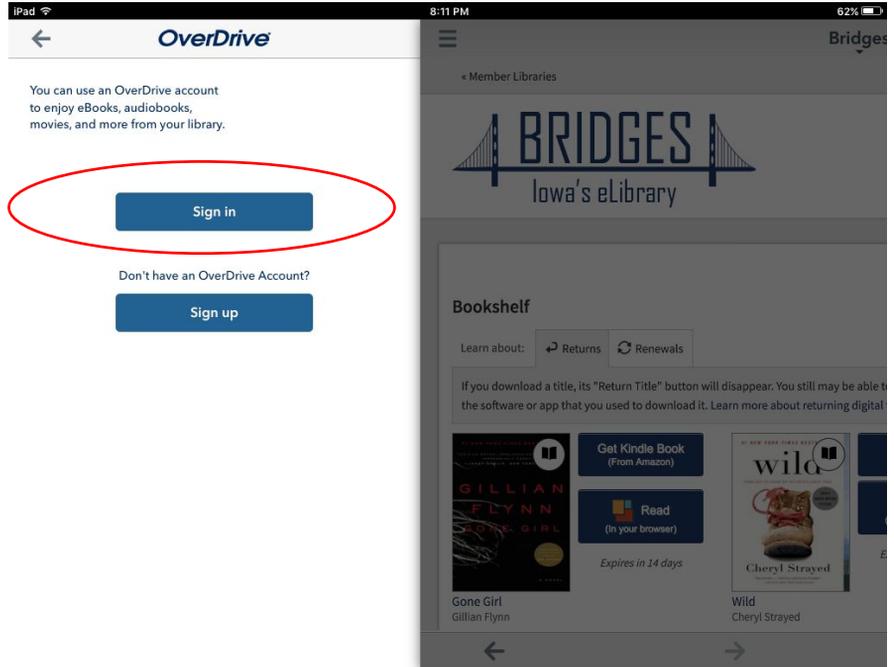

Bridges App- Sign Up for Account

Do not choose to sign up using your library card or facebook. These are not compatible with our setup.

Instead, enter your name and e-mail address and set a password. Your e-mail address will be your username.
